LIMITED BATCH

COMPANION (5.5% ABV)

Apple trees and tart cherry trees make good companions in the orchard. They bloom and harvest at different times throughout the growing season, which is good for the land and good for the farmer. We figured they might make nice companions in a fermented cider as well. It turned out to be true, which is good for us and good for you. Be a good Companion and enjoy this limited batch sour cherry cider.

\$7

BIG JUICY (8.0% ABV)

An imperial dry cider. VT-made apple molasses was produced from fresh apple cider in a local sugar house, blended with sweet cider and fermented to be completely dry.

\$7

PINE STREET CELLAR SERIES

CITRA STAR (6.0% ABV)

Back by popular demand, Citra Star is a sparkling off-dry cider using mountains of Citra hops.

\$7

TREE TAPPER (6.9% ABV)

Tree Tapper is fermented with red wine yeast and maple syrup from our friends at Runamok Maple. It's infused with Belgian candisyrup and aged on untoasted oak chips to add rich and hearty characteristics reminiscent of the season and the good maple farmers at the sugarhouse!

\$7

PLANET OF THE GRAPES (6.8% ABV)

This cider was co-fermented with petite pearl grape skins sourced from Shelburne Vineyards. It then underwent a wild fermentation and then bottle conditioned. This super unique cider has notes similar to a Pinot Noir with a delightful sparkling finish.
